

**WE
ARE
HIRING!**

**Searching for: SQL, Linux, AWS Developer
& Administrator**

**Bretonischer Ring 18
85630 Grasbrunn
www.bct14.de**

**JOIN
OUR
TEAM!**

We are a small, successful IT consulting company specializing in applications used by the music industry.

For over 20 years our firm has designed, developed, maintained and supported the worldwide leading industry artist royalty and copyright systems.

Applicants must have strong skills in SQL databases, LINUX and basic JAVA programming. Fluency level of English is required.

Your future job will include the following tasks:

- **Maintenance of technical infrastructure (Linux, AWS Console)**
- **Scheduling and control of batch jobs**
- **Version management**
- **Integration of new clients and setup of new servers**
- **SQL reports for error and data analysis**
- **Development and execution of test scripts**
- **Installation of all system components (SQL - Sybase/PostGres, JAVA, Web-Services, GIT)**
- **User communication**

From us, you can expect an experienced and well established team in which open communication, cooperation and personal responsibility is highly valued.

The capability to handle a complex range of tasks counts for more than formal work experience!

We look forward to hearing from you, please submit your application to:
